- **Video oprema** – 5 LCD monitora (HD rezolucija, dijagonala 40", 16:9). Monitori se nalaze na nosaču čiji su visina i ugao gledanja podesivi i prilagodljivi poziciji posmatrača. Reprodukcijska sposobnost ovih monitora omogućava reprodukciju sa svih uobičajnih nosača zvuka i slike, kao i ostalih digitalnih formata.
- **Audio oprema** – Sistem razglasa projektovan je za optimalni audio doživljaj. Audio sadržaj se reprodukuje preko predpojačala i pojačala, snage prilagodljive potrebama i nameni (glas, muzika). Bežični sistem razglasa sa mogućnošću distribucije audio zapisa.
- **Internet** – Obezbeđen je pristup Internetu putem kabla ili bežičnog prijemnika protoka do 2Mbps.
- **Elektroenergetska instalacija** je prilagođena savremenim potrebama video opreme i prateće opreme potrebne za snimanje (reflektori, punjači, kamere). Napajanje dela potrošača je obezbeđeno preko uređaja za besprekidno napajanje.
- **Klimatizacija** je obezbeđena preko kasetnih fan coil uređaja (grejanje i hlađenje). Potrebna količina svežeg vazduha reguliše se centralnim sistemom.
- **Video equipment** – 5 LCD monitors (HD resolution, diagonal 40", 16:9). The monitors height and angle of view are adjustable, suitable and fully visible to every viewer present. Reproduction of video material to these monitors is available from all types of media.
- **Audio equipment** – Sound system software is projected for an optimal audio experience. Audio content is reproduced across sound adjusters, with the volume set according to the needs and intentions (voice, music). There is also a wireless sound system capable of distribution of audio recording.
- **Internet** – Internet connection is provided via cable or wireless set up with speed up to 2Mbps.
- **Electrical installations** are in accordance with the latest, most modern requirements of video and supporting equipment, needed for recording (reflectors, chargers, cameras). Consumer equipment charging is available non stop, without interruption.
- **Acclimatization** is provided through fan coil systems (heating and cooling). The amount of fresh air needed is adjusted and injected through the central system.

Rasveta je prilagodljiva svim vrstama namene multimedijalne sale.

Lighting is adjustable to every usage requirement of the multipurpose room.
